

Educational Agreements

Education Agreements are contracts through which SEC receives its educational funding from SERDC via Southeast Student Services.

SESS is the reconciling agent to which AANDC (Aboriginal Affairs Northern Development Canada) approves the monthly funding to Southeast College.

Southeast Board Members are supportive of this Education Agreement which enables the Board and its employees to provide high quality education and living requirement to students while in Winnipeg.

Guidelines and procedures for the development of new agreements and the renewal of existing agreements are established by the Board and SERDC.

All agreements must be approved by motion by the Board.
