

Sick Leave- Full Time/Part- Time

SEC recognizes that employees may experience health conditions that prevent the employee from attending work.

Sick leave is an employee benefit in the form of earned paid leave which can be taken during periods of sickness, disability, or for accidents for which compensation is not payable under *The Workers Compensation Act*.

Subject to the attached procedure, SEC shall grant earned sick leave with pay to employees.

Sick benefits are for the employee only

Sick leave is for acute sickness, or appointments at health practitioners. We ask that you try to make all appointments after work if possible, however we know that sometimes that is not possible in the case of specialists. Please do your best to facilitate this request when possible.
