

Instructional Programs

The Board believes that SEC students should be successful in whatever they choose to do. In order to be successful, appropriate programming must be provided. These programs must reflect the needs and aspirations of the students and the community. SEC shall provide instructional programs designed to offer full educational opportunities for all students in accordance with their individual capabilities and needs.

To serve the special needs of certain pupils or groups of pupils within compulsory ages, the Board shall ensure that every possible provision is made in the most enabling and appropriate environment to respond to these needs.
